EDUCATION

MET's Institute of Engineering, Nashik *2024 – 2028*
Bachelor of Engineering in Computer Engineering CGPA: 8.5

MET Institute of Polytechnic, Nashik *2022 – 2024*
Diploma in Computer Engineering 92.07% (3rd Rank in Institute)

TECHNICAL SKILLS

Languages:	Java, JavaScript, TypeScript, Python, C, SQL
Frontend:	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Framer Motion
Backend:	Node.js, Express.js, FastAPI, Firebase
Databases:	MySQL, MongoDB, Firestore, BigQuery
Cloud & Tools:	Google Cloud Platform (GCP), Vertex AI, Git, GitHub, Docker, Vercel
Core Concepts:	Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

EXPERIENCE

Java Full Stack Developer Intern *Jan 2026 – Mar 2026*
EduSkills Foundation (Remote)

- Engineered and delivered full-stack web application features using React and Java within an Agile team, following professional software development lifecycle practices.
- Contributed to end-to-end development workflows including design, implementation, testing, and deployment of production-grade features.

PROJECTS

Carbon Footprint Awareness Platform *2026*
React.js, TypeScript, FastAPI, Google Cloud Run, BigQuery, Vertex AI

- At the Google Prompt War Hackathon with a score of **97.50/100** by engineering an AI-powered sustainability platform on Google Cloud infrastructure.
- Designed and deployed scalable carbon analytics pipelines leveraging BigQuery for large-scale data processing and Vertex AI for intelligent emissions insights.

AbhyasMitra *2025 – Present*
Next.js, Firebase, Tailwind CSS, Framer Motion

- Architected and deployed a production-grade educational platform actively serving **1,000+ engineering students** across SPPU University.
- Implemented secure authentication, real-time notes management, and a fully responsive UI, ensuring high availability and performance at scale.

VoteChainX – *UpXgen State Level Hackathon* *2025*
React.js, Next.js, TypeScript, Ethers.js

- Built a fully responsive, component-driven frontend for a decentralized e-voting platform with clean, modular React architecture and zero external UI library dependency.
- Managed complex async workflows and live blockchain data using hooks and state management; implemented gasless meta-transaction support for zero-cost participation.

KumbhPrasad *2025*
Next.js, Firebase, Razorpay

- Built a full-stack e-commerce platform featuring secure Firebase authentication, real-time order management, and an integrated Razorpay payment gateway with transaction verification.

ACHIEVEMENTS

- **Elite Gold (95%)** — Earned the NPTEL *Programming in Java* Elite Gold Certificate by scoring 95%, demonstrating strong programming proficiency.
- **Rank 1 State Level Hackathon** — Outperformed 96 teams in the Blockchain domain by building a high-performance web prototype under tight constraints — PVG Nashik.
- **3rd Institute Rank** — Diploma in Computer Engineering with 92.07%, demonstrating consistent academic excellence.
